Resolutions, decisions and President's statements adopted by the Council at its ninth session

A. Resolutions

9/1. Mandate of the Special Rapporteur on the adverse effects of the movement and dumping of toxic and dangerous products and wastes on the enjoyment of human rights

The Human Rights Council,

Guided by the Charter of the United Nations, the Universal Declaration of Human Rights, the International Covenants on Human Rights and the Vienna Declaration and Programme of Action, particularly on the question of the human rights of everyone to life, the enjoyment of the highest attainable standard of physical and mental health, food, adequate housing and work, access to information, access to safe drinking water and sanitation, public participation and the right to development,

Bearing in mind paragraph 6 of General Assembly resolution 60/251 of 15 March 2006,

Recalling all previous resolutions of the Commission on Human Rights on the adverse effects of the illicit movement and dumping of toxic and dangerous products and wastes on the enjoyment of human rights, in particular resolutions 1995/81 of 8 March 1995, 2004/17 of 16 April 2004 and 2005/15 of 14 April 2005,

Affirming that transboundary and national movements and the dumping of toxic and dangerous products and wastes may constitute a serious threat to human rights, including the right to life, the enjoyment of the highest attainable standard of physical and mental health, food, adequate housing and work, access to information and to safe drinking water and sanitation, public participation and the right to development,

Reiterating that all human rights are universal, indivisible, interdependent and interrelated,

Reaffirming that the international community must treat all human rights in a fair and equal manner, on the same footing and with the same emphasis,

Recalling Council resolutions 5/1 on institution-building of the United Nations Human Rights Council and 5/2 on the code of conduct for special procedures mandate-holders of the Human Rights Council, of 18 June 2007, and stressing that the mandate-holder shall discharge his/her duties in accordance with those resolutions and the annexes thereto,

1. *Strongly condemns* the dumping of toxic and dangerous products and wastes that have a negative impact on human rights;
2. *Acknowledges with appreciation* the work undertaken by the Special Rapporteur on the adverse effects of the illicit movement and dumping of toxic and dangerous products and wastes on the enjoyment of human rights;
3. *Decides* to extend the mandate of the Special Rapporteur on the adverse effects of the movement and dumping of toxic and dangerous products and wastes on the enjoyment of human rights for a further period of three years;
4. *Urges* the Special Rapporteur to continue to undertake, in consultation with the relevant United Nations bodies, organizations and the secretariats of relevant international conventions, a global, multidisciplinary and comprehensive study of existing problems and new trends of, and solutions to, the adverse effects of the trafficking and dumping of toxic and dangerous products and wastes on human rights, in particular in developing countries, as well as in those sharing borders with developed countries, with a view to making concrete recommendations and proposals on adequate measures to control, reduce and eradicate these phenomena;
5. *Invites* the Special Rapporteur, in accordance with his mandate, to include in his report to the Council comprehensive information on:
 - (a) The adverse effects on the full enjoyment of human rights, including in particular the right to life, the enjoyment of the highest attainable standard of physical and mental health, resulting from the movement and dumping of toxic and dangerous products and wastes;
 - (b) Human rights responsibilities of transnational corporations and other business enterprises that dump toxic and dangerous products and wastes;

(c) The question of rehabilitation of and assistance to victims;

(d) The scope of national legislation in relation to transboundary movement and dumping of toxic and dangerous products and wastes;

(e) The human rights implications of waste-recycling programmes, the transfer of polluting industries, industrial activities and technologies from developed to developing countries and their new trends, including e-waste and the dismantling of ships;

(f) The question of ambiguities in international instruments that allow the movement and dumping of toxic and dangerous products and wastes, and any gaps in the effectiveness of the international regulatory mechanisms;

6. *Calls upon* countries to facilitate the work of the Special Rapporteur by providing information and inviting him to undertake country visits;

7. *Encourages* the Special Rapporteur, in accordance with his mandate and with the support and assistance of the Office of the United Nations High Commissioner for Human Rights, to continue to provide Governments with an appropriate opportunity to respond to allegations transmitted to him and reflected in his report, and to have their observations reflected in his report to the Council;

8. *Reiterates* its call to the Secretary-General to continue to make all necessary resources available to the Special Rapporteur so that he may carry out his mandate successfully and, in particular:

9. *Stresses* the need to ensure adequate financial, technical and human resources to the Special Rapporteur for the effective fulfilment of his mandate;

10. *Decides* to continue consideration of the issue of the adverse effects of the movement and dumping of toxic and dangerous products and wastes on the enjoyment of human rights under the same agenda item in 2009, in accordance with its annual of programme of work.

9/2. Human rights and international solidarity

The Human Rights Council,

Reaffirming all previous resolutions adopted by the Commission on Human Rights and the Council on the issue of human rights and international solidarity, including Commission resolution 2005/55 and Council resolutions 6/3 and 7/5, and taking note of the reports presented by the independent expert on human rights and international solidarity, in particular his latest one (A/HRC/9/10),

Underlining the fact that the processes of promoting and protecting human rights should be conducted in conformity with the purposes and principles of the Charter of the United Nations and of international law,

Recalling that, at the World Conference on Human Rights, held in Vienna in June 1993, States pledged to cooperate with each other in ensuring development and eliminating obstacles to development, and stressed that the international community should promote effective international cooperation for the realization of the right to development and the elimination of obstacles to development,

Reaffirming that article 4 of the Declaration on the Right to Development states that sustained action is required to promote more rapid development of developing countries and, as a complement to the efforts of developing countries, effective international cooperation is essential in providing these countries with appropriate means and facilities to foster their comprehensive development,

Taking into account that article 2 of the International Covenant on Economic, Social and Cultural Rights states that each State party to the Covenant undertakes to take steps, individually and through international assistance and cooperation, especially economic and technical, to the maximum of its available resources, with a view to achieving progressively the full realization of the rights recognized in the Covenant by all appropriate means, including particularly the adoption of legislative measures,

Persuaded that sustainable development can be promoted by peaceful coexistence, friendly relations and cooperation among States with different social, economic or political systems,

Reaffirming that the widening gap between the economically developed and developing countries is unsustainable and that it impedes the realization of human rights in the international community, and makes it all the more imperative for every nation, according to its capacities, to make the maximum possible effort to close this gap,

Expressing concern at the fact that the immense benefits resulting from the process of globalization and economic interdependence have not reached all countries, communities and individuals, and at the increasing marginalization from their benefits of several countries, particularly the least developed and the African countries,

Expressing its deep concern at the number and scale of natural disasters, diseases and agricultural pests and their increasing impact in recent years, which have resulted in a massive loss of life and long-term negative social, economic and environmental consequences for vulnerable societies throughout the world, in particular in developing countries,

Reaffirming the crucial importance of increasing the resources allocated to official development assistance, and recalling the pledge of the industrialized countries to allocate 0.7 per cent of their gross national product to official development assistance, and recognizing the need for new and additional resources to finance the development programmes of developing countries,

Determined to take new steps forward in the commitment of the international community with a view to achieving substantial progress in human rights endeavours by an increased and sustained effort of international cooperation and solidarity,

Asserting the necessity to establish new, equitable and global links of partnership and intragenerational solidarity for the perpetuation of humankind,

Recognizing that the attention paid to the importance of international solidarity as a vital component of the efforts of developing countries towards the realization of the right to development of their peoples and the promotion of the full enjoyment of economic, social and cultural rights by everyone has been insufficient,

Resolved to strive to ensure that present generations are fully aware of their responsibilities towards future generations, and that a better world is possible for present and future generations,

1. *Reaffirms* the recognition set forth in the declaration adopted by the Heads of State and Government at the Millennium Summit of the United Nations of the fundamental value of solidarity to international relations in the twenty-first century, in stating that global challenges must be managed in a way that distributes costs and burdens fairly, in accordance with basic principles of equity and social justice, and that those who suffer, or who benefit least, deserve help from those who benefit most;

2. *Expresses its determination* to contribute to the solution of current world problems through increased international cooperation, to create such conditions as will ensure that the needs and interests of future generations are not jeopardized by the burden of the past, and to hand over a better world to future generations;

3. *Urges* the international community to consider urgently concrete measures to promote and consolidate international assistance to developing countries in their development endeavours and for the promotion of conditions conducive to the full realization of all human rights;

4. *Reaffirms* that the promotion of international cooperation is a duty for States, and that it shall be implemented without any conditionality, and on the basis of mutual respect, in full compliance with the principles and purposes of the Charter of the United Nations, in particular respect for the sovereignty of States, and taking into account national priorities;

5. *Recognizes* that the so-called “third-generation rights” closely interrelated with the fundamental value of solidarity need further progressive development within the United Nations human rights machinery in order to be able to respond to the increasing challenges of international cooperation in this field;

6. *Requests* all States, United Nations agencies, other relevant international organizations and non-governmental organizations to mainstream the right of peoples and individuals to international solidarity in their activities, and to cooperate with the independent expert in his mandate, to supply all necessary information requested by him and to give serious consideration to responding favourably to the requests of the independent expert to visit their countries, to enable him to fulfil his mandate effectively;

7. *Requests* the independent expert to continue his work in the preparation of a draft declaration on the right of peoples and individuals to international solidarity, and in further developing guidelines, standards, norms and principles with a view to promoting and protecting this right, by addressing, inter alia, existing and emerging obstacles to its realization;

8. *Also requests* the independent expert to take into account the outcomes of all major United Nations and other global summits and ministerial meetings in the economic and social fields and to seek views and contributions from Governments, United Nations agencies, other relevant international organizations and non-governmental organizations in the discharge of his mandate;

9. *Requests* the Human Rights Council Advisory Committee to prepare inputs to contribute to the elaboration of the draft declaration on the right of peoples and individuals to international solidarity, and to the further development of guidelines, standards, norms and principles with a view to promoting and protecting this right;

10. *Requests* the independent expert to submit a report on the implementation of the present resolution to the Council at its twelfth session;

11. *Decides* to continue its examination of this issue at its twelfth session under agenda item 3.

9/3. The right to development

The Human Rights Council,

Recalling the Charter of the United Nations and the core human rights instruments,

Reaffirming the United Nations Declaration on the Right to Development, adopted by the General Assembly in its resolution 41/128 of 4 December 1986,

Reaffirming also its resolution 4/4 of 30 March 2007 and recalling all Commission on Human Rights, Human Rights Council and General Assembly resolutions on the right to development,

Emphasizing the urgent need to make the right to development a reality for everyone,

Taking note of the efforts under way in the framework of the Working Group on the Right to Development with the support of the high-level task force on the implementation of the right to development to develop a set of criteria for the periodic evaluation of global partnerships as identified in Millennium Development Goal 8,

1. *Welcomes* the report of the Working Group on the Right to Development (A/HRC/9/17);
2. *Decides*:
 - (a) To continue to act to ensure that its agenda promotes and advances sustainable development and the achievements of the Millennium Development Goals and, in this regard, to lead to raising the right to development, as set out in paragraphs 5 and 10 of the Vienna Declaration and Programme of Action, to the same level and on a par with all other human rights and fundamental freedoms;
 - (b) To endorse the workplan for the task force for the period 2008-2010, outlined in paragraph 43 of the report of the Working Group, which would ensure that the criteria for the periodic evaluation of global partnerships, as identified in Millennium Development Goal 8, to be submitted by the task force to the Working Group at its eleventh session in 2010, is extended to other components of Millennium Development Goal 8;
 - (c) That the above criteria, once considered, revised and endorsed by the Working Group, should be used, as appropriate, in the elaboration of a comprehensive and coherent set of standards for the implementation of the right to development;
 - (d) That, upon completion of the three phases of the road map, the Working Group will take appropriate steps to ensure respect for and practical application of these standards, which could take various forms, including guidelines on the implementation of the right to development, and evolve into a basis for consideration of an international legal standard of a binding nature, through a collaborative process of engagement;
 - (e) To renew the mandate of the Working Group until it completes the tasks entrusted to it by Council in its resolution 4/4, and that the Working Group shall convene annual sessions of five working days and submit its reports to the Council;
 - (f) To renew also the mandate of the high-level task force on the implementation of the right to development, established within the framework of the Working Group, until the eleventh session of the Working Group in 2010, and that the task force will convene annual sessions of seven working days and submit its reports to the Working Group;

(g) To request the Office of the United Nations High Commissioner for Human Rights to continue to take all necessary measures and allocate necessary resources for the effective implementation of the present resolution, taking into account the needs for the effective implementation of the workplan referred to in paragraph 2 (b) above;

3. *Also decides* to review the progress of the implementation of the present resolution as a matter of priority at its future sessions.

22nd meeting
24 September 2008
[Adopted without a vote. See chap. III.]

9/4. Human rights and unilateral coercive measures

The Human Rights Council,

Recalling the purposes and principles of the Charter of the United Nations,

Recalling also all previous resolutions on human rights and unilateral coercive measures adopted by the Commission on Human Rights, the Council and the General Assembly,

Reaffirming its resolution 6/7 of 28 September 2007 and Assembly resolution 62/162 of 18 December 2007,

Taking note of the report of the Secretary-General on this issue (A/HRC/9/2),

Stressing that unilateral coercive measures and legislation are contrary to international law, international humanitarian law, the Charter of the United Nations and the norms and principles governing peaceful relations among States,

Recognizing the universal, indivisible, interdependent and interrelated character of all human rights and, in this regard, reaffirming the right to development as a universal and inalienable right and an integral part of all human rights,

Expressing its concern at the negative impact of unilateral coercive measures in the field of human rights, development, international relations, trade, investment and cooperation,

Recalling the final document of the Fourteenth Conference of Heads of State or Government of the Non-Aligned Movement, held in September 2006 in Havana and the final document of the Ministerial Conference of the Non-Aligned Movement, held in Teheran in July 2008, at which the high dignitaries of the Member States agreed to oppose and condemn these measures or laws and their continued application, to persevere with efforts to effectively reverse them and urged other States to do likewise, as called for by the General Assembly and other United Nations organs, and to request States applying these measures or laws to revoke them fully and immediately,

Recalling also that the World Conference on Human Rights, held in Vienna from 14 to 25 June 1993, called upon States to refrain from any unilateral measure not in accordance with international law and the Charter of the United Nations that creates obstacles to trade relations among States and impedes the full realization of all human rights, and also severely threatens the freedom of trade,

Deeply concerned that, despite the resolutions adopted on this issue by the General Assembly, the Council, the Commission on Human Rights and at United Nations conferences held in the 1990s and at their five-year reviews, and contrary to norms of international law and the Charter of the United Nations, unilateral coercive measures continue to be promulgated, implemented and enforced, inter alia, by resorting to war and militarism, with all their negative implications for the social-humanitarian activities and economic and social development of developing countries, including their extraterritorial effects, thereby creating additional obstacles to the full enjoyment of all human rights by peoples and individuals under the jurisdiction of other States,

Reaffirming that unilateral coercive measures are a major obstacle to the implementation of the Declaration on the Right to Development,

Recalling article 1, paragraph 2, common to the International Covenant on Civil and Political Rights and the International Covenant on Economic, Social and Cultural Rights, which provides, inter alia, that in no case may a people be deprived of its own means of subsistence,

1. *Urges* all States to stop adopting or implementing unilateral coercive measures not in accordance with international law, international humanitarian law, the Charter of the United Nations and the norms and principles governing peaceful relations among States, in particular those of a coercive nature with extraterritorial effects, which create obstacles to trade relations among States, thus impeding the full realization of the rights set forth in the Universal Declaration of Human Rights and other international human rights instruments, in particular the right of individuals and peoples to development;

2. *Strongly objects* to the extraterritorial nature of those measures which, in addition, threaten the sovereignty of States and, in this context, calls upon all Member States neither to recognize these measures nor apply them, and to take effective administrative or legislative measures, as appropriate, to counteract the extraterritorial application or effects of unilateral coercive measures;

3. *Condemns* the continued unilateral application and enforcement by certain powers of such measures as tools of political or economic pressure against any country, particularly against developing countries, with a view to preventing these countries from exercising their right to decide, of their own free will, their own political, economic and social systems;

4. *Reiterates its call* upon Member States that have initiated such measures to abide by the principles of international law, the Charter of the United Nations, the declarations of the United Nations and world conferences and relevant resolutions and to commit themselves to their obligations and responsibilities arising from the international human rights instruments to which they are parties by putting an immediate end to such measures;

5. *Reaffirms*, in this context, the right of all peoples to self-determination, by virtue of which they freely determine their political status and freely pursue their economic, social and cultural development;

6. *Recalls* that, according to the Declaration on Principles of International Law concerning Friendly Relations and Cooperation among States in accordance with the Charter of the United Nations, contained in the annex to General Assembly resolution 2625 (XXV) of 24 October 1970, and according to the relevant principles and provisions contained in the Charter of Economic Rights and Duties of States proclaimed by the Assembly in its resolution 3281 (XXIX) of 12 December 1974, in particular article 32, no State may use or encourage the use of economic, political or any other type of measure to coerce another State in order to obtain from it the subordination of the exercise of its sovereign rights and to secure from it advantages of any kind;

7. *Reaffirms* that essential goods, such as food and medicines, should not be used as tools for political coercion and that under no circumstances should people be deprived of their own means of subsistence and development;

8. *Underlines* the fact that unilateral coercive measures are one of the major obstacles to the implementation of the Declaration on the Right to Development and, in this regard, calls upon all States to avoid the unilateral imposition of economic coercive measures and the extraterritorial application of domestic laws that run counter to the principles of free trade and hamper the development of developing countries, as recognized by the Intergovernmental Group of Experts on the Right to Development in its report on its second session (E/CN.4/1998/29);

9. *Rejects* all attempts to introduce unilateral coercive measures, as well as the increasing trend in this direction, including through the enactment of laws with extraterritorial application which are not in conformity with international law;

10. *Recognizes* that the Declaration of Principles adopted at the first phase of the World Summit on the Information Society, held in Geneva in December 2003, strongly urged States to avoid and refrain from any unilateral measure in building the information society;

11. *Invites* all special rapporteurs and existing thematic mechanisms of the Council in the field of economic, social and cultural rights to pay due attention, within the scope of their respective mandates, to the negative impact and consequences of unilateral coercive measures;

12. *Decides* to give due consideration to the negative impact of unilateral coercive measures in its task concerning the implementation of the right to development;

13. *Requests*:

(a) The United Nations High Commissioner for Human Rights, in discharging her functions in relation to the promotion and protection of human rights, to pay due attention and give urgent consideration to the present resolution;

(b) The Secretary-General to bring the present resolution to the attention of all States Members of the United Nations and to seek their views and information on the implications and negative effects of unilateral coercive measures on their populations, and to submit a report thereon to the Council at its twelfth session;

14. *Decides* to examine this question, on a priority basis, as appropriate, in accordance with its annual programme of work under the same agenda item.

9/5. Human rights of migrants

The Human Rights Council,

Reaffirming the Universal Declaration of Human Rights on its sixtieth anniversary, which proclaims that all human beings are born free and equal in dignity and rights and that everyone is entitled to all the rights and freedoms set out therein, without distinction of any kind, in particular with regard to race, colour or national origin,

Recalling previous resolutions adopted by the Commission on Human Rights and the General Assembly on the protection of migrants,

Recalling also the provisions concerning migrants contained in the outcome documents of all major United Nations conferences and summits,

Considering that every State must ensure the protection of human rights of all individuals within its territory and subject to its jurisdiction, without discrimination of any kind, including in particular on the basis of national origin,

Recalling the judgment of the International Court of Justice of 27 June 2001 and advisory opinions OC 16/99 of 1 October 1999 and OC 18/03 of 17 September 2003, issued by the Inter-American Court of Human Rights, on the right to information on consular assistance in the framework of the guarantees of the due process of law and on the juridical condition and rights of undocumented migrants, respectively,

Taking note of the judgment of the International Court of Justice of 31 March 2004 in the case of *Avena and Other Mexican Nationals (Mexico v. United States of America)* and recalling the obligations of States reaffirmed therein, as well as in the subsequent rulings of the International Court of Justice following that judgment,

Concerned at the large and growing number of migrants, especially women and children, who attempt to cross international borders without the required travel documents, which places them in a particularly vulnerable situation, and recognizing the obligation of States to respect the human rights of those migrants,

Recognizing the increasing participation of women in international migration movements,

Deeply concerned at the manifestations of violence, racism, racial discrimination, xenophobia and other forms of intolerance and inhuman and degrading treatment against migrants, especially women and children, in different parts of the world,

Recalling the High-level Dialogue on International Migration and Development, held pursuant to General Assembly resolution 58/208 of 23 December 2003, in New York on 14 and 15 September 2006, for the purpose of discussing the multidimensional aspects of international migration and development, which recognized the relationship between international migration, development and human rights,

Noting the adoption of resolution 62/270 by the General Assembly on the Global Forum on Migration and Development in which, inter alia, the Assembly recognizes that exchanges of information and expertise, consultation and closer cooperation between the Global Forum on Migration and Development and the United Nations could have a positive impact,

Recognizing the role of migrants in positive interaction, particularly in social and cultural fields between the countries of migration, and their contribution to the promotion of international ties,

Recognizing also the cultural and economic contributions made by migrants to receiving societies and their communities of origin and committing to ensure dignified, humane treatment with applicable protections and to strengthening mechanisms for international cooperation,

Emphasizing the global character of the migratory phenomenon, the importance of international, regional and bilateral cooperation and the need to protect the human rights of migrants, particularly at a time in which migration flows have increased in the globalized economy and take place in a context of new security concerns,

Bearing in mind that policies and initiatives on the issue of migration, including those that refer to the orderly management of migration, should promote holistic approaches that take into account the causes and consequences of the phenomenon, the full respect of human rights and the fundamental freedoms of migrants,

Resolved to ensure respect for the human rights and fundamental freedoms of all migrants,

1. *Reaffirms* the rights set forth in the Universal Declaration of Human Rights, and in this regard:

(a) Strongly condemns the manifestations and acts of racism, racial discrimination, xenophobia and related intolerance against migrants and the stereotypes often applied to them, and urges States to apply existing laws when xenophobic or intolerant acts or manifestations or expressions against migrants occur, in order to eradicate impunity for those who commit xenophobic and racist acts;

(b) Requests States to effectively promote and protect the human rights and fundamental freedoms of all migrants, especially those of women and children, regardless of their immigration status, in conformity with the Universal Declaration of Human Rights and the international instruments to which they are party;

(c) Expresses concern at legislation and measures adopted by some States that may restrict the human rights and fundamental freedoms of migrants, and reaffirms that, when exercising their sovereign right to enact and implement migratory and border security measures, States have the duty to comply with their obligations under international law, including international human rights law, in order to ensure full respect for the human rights of migrants;

(d) Calls upon States to observe national legislation and applicable international legal instruments to which they are party when enacting national security measures, in order to respect the human rights of migrants;

(e) Takes note of action taken by several special procedures of the Council towards the effective prevention of violations of human rights of migrants, including through joint statements, and encourages them to continue with their collaborative efforts to this end within their respective mandates;

(f) Calls upon States that have not done so to consider signing and ratifying or acceding to the International Convention on the Protection of the Rights of All Migrant Workers and Members of Their Families as a matter of priority, and requests the Secretary-General to continue his efforts to promote and to raise awareness of the Convention;

2. *Also reaffirms* the duty of States to effectively promote and protect the human rights and fundamental freedoms of all migrants, especially those of women and children, regardless of their immigration status, in conformity with the Universal Declaration of Human Rights and the international instruments to which they are party, and therefore:

(a) Urges all States to adopt effective measures to put an end to the arbitrary arrest and detention of migrants and to take actions to prevent and punish any form of illegal deprivation of liberty of migrants by individuals or groups;

(b) Takes note with appreciation of States that have successfully implemented alternative measures to detention for undocumented migrants and requests the Special Rapporteur, other special procedures of the Council and the High Commissioner for Human Rights to pay special attention to cases of arbitrary detention of migrants, particularly of migrant children and adolescents;

(c) Requests States to adopt concrete measures in order to prevent the violation of the human rights of migrants while in transit, including in ports and airports and at borders and migration checkpoints, and to train public officials who work in those facilities and in border areas to treat migrants and their families respectfully and in accordance with the law;

(d) Also requests States to prosecute, in conformity with applicable law, any act of violation of the human rights of migrants and their families, inter alia, arbitrary detention, torture and violations of the right to life, including extrajudicial executions during their transit from their country of origin to the country of destination and vice versa, including their transit through national borders;

(e) Reaffirms emphatically the duty of States parties to ensure full respect for and observance of the Vienna Convention on Consular Relations, particularly with regard to the right of foreign nationals, regardless of their immigration status, to communicate with a consular official of their own State in the case of detention, and the obligation of the State in whose territory the detention occurs to inform the foreign national of that right;

(f) Requests all States, in conformity with national legislation and applicable international legal instruments to which they are party, to prosecute violations of labour law firmly with regard to migrant workers' conditions of work, inter alia, those related to their remuneration and conditions of health, safety at work and the right to freedom of association;

(g) Encourages all States to remove unlawful obstacles that may prevent the safe, unrestricted and expeditious transfer of earnings, assets and pensions of migrants to their country of origin or to any other countries, in conformity with applicable legislation, and to consider, as appropriate, measures to solve other problems that may impede such transfers;

(h) Welcomes the adoption by the World Health Organization of its resolution WHA61.17 on the health of migrants, and calls upon States to take it into account as a measure for the progressive realization of the right of everyone to the enjoyment of the highest attainable standard of physical and mental health;

(i) Recalls that the Universal Declaration on Human Rights recognizes that everyone has the right to an effective remedy by the competent national tribunals for acts violating the fundamental rights granted to him or her;

3. *Emphasizes* the importance of protecting vulnerable groups, and in this regard:

(a) Welcomes the immigration programmes, adopted by some countries, that allow migrants to integrate fully into the host countries, facilitate family reunification and promote a harmonious and tolerant environment, and encourages States to consider the possibility of adopting that type of programme;

(b) Encourages all States to apply a gender perspective in developing international migration policies and programmes in order to adopt the necessary measures to better protect women and girls against dangers and abuse during migration;

(c) Calls upon States to protect the human rights of migrant children, given their vulnerability, particularly unaccompanied migrant children, ensuring that the best interests of the children are a primary consideration in their policies of integration, return and family reunification;

(d) Encourages all States to prevent and eliminate discriminatory policies that deny migrant children access to education;

(e) Urges States to ensure that repatriation mechanisms allow for the identification and special protection of persons in vulnerable situations, including persons with disabilities, and take into account, in conformity with their international obligations and commitments, the principle of the best interest of the child and family reunification;

9/6. Follow-up to the seventh special session of the Human Rights Council on the negative impact of the worsening of the world food crisis on the realization of the right to food for all

The Human Rights Council,

Reaffirming all previous resolutions and decisions on the right to food adopted in the framework of the United Nations, in particular Council resolution S-7/1 of 22 May 2008,

Recalling the United Nations Millennium Declaration, in particular the first Millennium Development Goal of eradicating hunger and extreme poverty by 2015,

Noting the outcome of the High-level Conference on World Food Security: the Challenges of Climate Change and Bioenergy, held from 3 to 5 June 2008, in Rome,

Resolved to act to ensure that the human rights perspective is taken into account at the national, regional and international levels in measures to address the current world food crisis,

Welcoming the holding of the panel discussion entitled “The human right to food and the global food crisis: root causes and responses”, held in New York, on 29 August 2008,

Acknowledging the task force established by the Secretary-General, and supporting the Secretary-General to continue his efforts in this regard,

Recognizing the complex character of the current global food crisis, as a combination of several major factors, both structural and conjunctural, also impacted negatively by, inter alia, environmental degradation, drought and desertification, global climate change, natural disasters and the lack of the necessary technology, and recognizing also that a strong commitment from national Governments and the international community as a whole is required to confront the major threats to food security,

1. *Acknowledges with appreciation* the report of the Special Rapporteur on the right to food (A/HRC/9/23), and takes note of his recommendations;
2. *Expresses* grave concern at the fact that the current world food crisis still seriously undermines the realization of the right to food for all, and especially for one sixth of the world population, mainly in developing and least developed countries, suffering from hunger, malnutrition and food insecurity;
3. *Encourages* States to mainstream the human rights perspective in building and reviewing their national strategies for the realization of the right to adequate food for all, which could include, inter alia, the mapping of the food insecure, the adoption of relevant legislation and policies with a right to food framework, the establishment of mechanisms to ensure accountability so that rights-holders are able to claim their right to food, and the establishment of mechanisms and processes which ensure participation of rights-holders, particularly the most vulnerable, in the design and monitoring of such legislation and policies;

4. *Also encourages* all States to invest or promote investment in agriculture and rural infrastructure in a manner that empowers the most vulnerable and affected by the current crisis in order to ensure their realization of the right to food;

5. *Calls upon* States, individually and through international cooperation and assistance, relevant multilateral institutions and other relevant stakeholders, to take all necessary measures to ensure the realization of the right to food as an essential human rights objective, and to consider reviewing any policy or measure that could have a negative impact on the realization of the right to food, particularly the right of everyone to be free from hunger, before instituting such a policy or measure;

6. *Stresses* that States have a primary obligation to make their best efforts to meet the vital food needs of their own populations, especially of vulnerable groups and households, such as by enhancing programmes to combat mother-child malnutrition, and to increase local production for this purpose, while the international community should provide, through a coordinated response and upon request, support for national and regional efforts by providing the necessary assistance for increasing food production, particularly through agricultural development assistance, the transfer of technology, food crop rehabilitation assistance and food aid, with a special focus on the gender-sensitive dimension;

7. *Encourages* all relevant international organizations and agencies to bring to their studies, research, reports and resolutions on the issue of food security a human rights perspective and the need for the realization of the right to food for all;

8. *Requests* the Special Rapporteur on the right to food to continue the promotion of the right to food and the follow-up to the current world food crisis in all relevant forums, especially in the framework of the United Nations and all the relevant international organizations and agencies of the United Nations system, in order to contribute to identifying means to implement the right to food;

9. *Also requests* the Special Rapporteur to report on the implementation of the present resolution to the Council at its twelfth session, including on the progress made and obstacles encountered in relation with the implementation at the national level of the measures and best practices adopted by States to respond to the global food crisis;

10. *Requests* the United Nations High Commissioner for Human Rights to bring the present resolution to the attention of all relevant international organizations and agencies;
