

# **PROVISIONAL MEMORIAL FOR HISTORY PRODUCERS KILLED FOR POLITICAL REASONS**

**(From Ancient Times to the Present)**

**— last updated 20 July 2022 —**

## **Presentation**

The list is ordered by country, then by year of death, then alphabetically.

## **Methodology**

The list includes history producers (all those involved, professionally or otherwise, in the collection, creation, or transmission of history) who were killed

- because they were history producers, *or*
- because they were intellectuals, academics, journalists, human rights defenders, *or*
- because they were political activists, *or*
- because they were members of specific national, racial, ethnic, or religious groups.

The list should only be interpreted with knowledge of the database criteria and restrictions explained in Antoon De Baets, *Crimes against History* (London: Routledge, 2019), 9–27.

## **Disclaimer**

The author does not necessarily share the views, historical or otherwise, or approve the actions of the persons on this list.

## **Notes**

1. The list has a preliminary character. Additions and corrections are welcome.
2. Excluded from the list were:
  - Cases of deaths with insufficient data in the Inka Empire, Imperial and Maoist China, the Stalinist USSR, and Duvalier Haiti.
  - Deaths that constitute borderline cases with other disciplines, professions, or offices (literary scholars, religious scholars, sociologists, presidents).
  - Deaths of Nazi collaborators; deaths of Holocaust deniers in France and Poland; political figures indicted for international crimes who also were historians and who died before, during, or after their trial.

## **Additions**

Please send any names or other suggestions to [antoondebaets@concernedhistorians.org](mailto:antoondebaets@concernedhistorians.org)
